

Throw Your Arms Around Me

I will come to you in the nighttime
I will raise you from your sleep
I will kiss you in four places
As you'll make me call your name as I shout it to the blue,
summer sky

We may never meet again
So shed your skin lets get started
And you will throw... your arms around me
you will throw,,, your arms around me

OH..... YEAH

OHYEAH

We may never meet again
So shed your skin lets get started
And you will throw... your arms around me

You will throwoh... your arms around me
You will throwoh... your arms around me
You will throwoh... your arms around me

(2 part)

You will throwoh... your arms around me

We may never meet again
So shed your skin lets get started

OH
